- Meet area coaches and members
- Learn what it takes to join the exciting future of Robotics
- **What to Bring:**
  - Sense of adventure
  - Laptop with NXT/RIS/Robolab software installed
  - Robot or Mindstorm kit
  - Lunch (refreshments will be available)

**2008 Theme: Climate Connections - Building a Global Game Plan**

The "*winds of change are blowing*" and with them comes FIRST LEGO League's 2008 *Climate Connections* Challenge! Join us as we explore why many experts believe the earth's climate is changing and how these changes impact you and our planet. The causes, contributions, and consequences are all interconnected and the experts are telling us to "think globally - act locally." People, resources, and local actions need to be united to establish a global game plan. Do FIRST LEGO League teams have what it takes to make these global Climate Connections?
